You need to consider all risks when carrying out your fire risk assessment

➔ **Fire Prevention Week starts
9th October 2011**

Does your family know what to do in an emergency situation, such as a house fire? How about preventing a house fire?

This year, the campaign is all about keeping you, your family, and your community safer from fire.

Fire Safety Training Courses For All

Fire Warden Training
Monday 17th October 2011
9.15am—12.30pm

This popular 3 hour interactive workshop will provide attendees with understanding and knowledge of the threat and spread of fire, prevention of fire, action to be taken in the event of a fire, evacuation, fire extinguishers and general fire safety awareness.

Also included as part of this course is our Hands on Fire Extinguisher Operation. This will increase the attendees knowledge of fire extinguishers, how to use them and the correct one to use should the need arise.

Our training is presented by a fully qualified and competent trainer who will cover all issues relating to Fire Wardens responsibilities and duties within the workplace.

Course Price: £55 + VAT per attendee

Managing Fire Safety
Wednesday 16th November 2011,
9.15am—4.30pm

This 1 day course has been specifically designed to train and empower the Responsible Person or Fire Safety Manager. We understand that fire safety can often become a burden on the person responsible and we aim to make you feel in control of your duties. Regular maintenance, producing procedures and policies, carrying out a fire risk assessment and acting on your significant findings are all main aspects of managing fire safety in the workplace. Our training complements both the Regulatory Reform (Fire Safety) Order 2005 and BS999:2008. We aim to provide you with a fully comprehensive course filled with informative material relating to your specific workplace.

Course Price: £75 + VAT per attendee

Responsible Person Course
18th & 19th October 2011,
9.15am—4.30pm

This 2 day Responsible Person Training Course is delivered by our senior fire safety consultant who has over 30 years experience in fire fighting, fire risk assessment and training.

Topics included in this training include fire risk assessment, policies and procedures, staff training, evacuation and fire drills. Maintaining your signs, emergency lighting, fire detection systems and alarms is also included.

Attendees will be able to implement their knowledge, experience and understanding into ensuring their workplace is safe from the risk of fire and compliant with fire safety legislation.

Course Price: £149.95 + VAT per attendee

Host a Fire Safety Sign Presentation / Workshop

This month we have had two great successful presentations. We hope those of you that attended found it not only of use but of interest.

The presentations held in London and Southend provided the hosts and surrounding organisations the chance to interact and discuss issues that are important to them (obviously relevant to fire safety). We find this gives not only ourselves the chance to mix with our customers but also a great opportunity for like minded individuals to cohere together.

Our fire safety consultants are more than happy to attend your premises, where they can provide you with a useful and informative workshop concerning the management of fire safety or the technical issues that you may have with fire safety signs and emergency lighting. We do offer this service to our customers free of charge, the only thing we ask is that a room is available with the chance to invite other organisations (that's only if you have less than 15 people from your organisation already attending).

If you feel this would be of use to you please do not hesitate to contact us with a day that you may have in mind. Alternatively we can send you over some information on the workshops before we arrange anything.
